Displaying agricultural antiques, photographs and other interesting artefacts.

Local Resources

History Resources in the
Brighton Public Library

The Brighton Public Library has a small but mighty collection of local history resources, including our brand-new microfilm reader! Now you can easily view Brighton's historic publications dating back to the 1800s, in addition to accessing Ancestry.ca Library Edition and our hard copy resources. Ask staff for assistance when locating family annals, oral histories and other unique items that can help in your research.

Genealogical Research

Do you want to learn more about the families in the area? Perhaps you are searching for relatives as part of your own family history. The best place to begin looking is Dan Buchanan's "Trees by Dan." Started as a hobby, this on-line resource has grown to close to 100,000 people, all organized by surname. It contains all the information and links that Dan has been able to find and it is constantly being updated. To get started, go to:

www.TreesByDan.com

Special Thanks to:
